**April 2019** Issue 252

YCCC General Meeting Sunday, April 14<sup>th</sup>, 2019 - 1:00 - 4:00 p.m. Sturbridge Host Hotel & Conference Center Sturbridge, MA

#### CAPTAIN'S CABIN

Here we go. Less than 1 week before the next YCCC Meeting. I was hoping that this was going to be my last Captain's Cabin, but it appears that I may have the President's job next year by default. No one has surfaced (or I haven't twisted the right arm yet) to run for President, so I can be persuaded to serve another year. All the other officers have indicated they will run for re-election, so I have good people to back me.

Oh, did I say that Elections will be held at the April meeting? Yes they will! The meeting will be held on Sunday April 14 from 1-4pm at the Sturbridge Host Hotel. The meeting will feature speakers such as Marty NN1C on "Team Exuberance", Guy VE2BWL on his recent training of members of the Canadian Signals Regiment, and Bruce K1BG on Entry Level Licensing. Recruitment of new members, particularly youth members, is a way to keep Amateur Radio (and Contesting) alive!

I've been quite busy with different projects here. The CAC, HQ9X support, rehabbing a couple of old radios, and development of the Martty are all enjoyable projects I've been doing. Moving into spring, there is now antenna work that needs to be, and can be, done. My home 6BTV, which has been up since last November, still needs radials- I can finally get to the antenna to add them! Still, its been a lot of fun!

Did I mention that we still have the raffle going on? A new IC7610. Tickets \$25 apiece, we're committed to selling a set amount and we hold the drawing. We still need to sell about 30 tickets to meet our quota, and tickets will be available at the April meeting. I'd like to see this scholarship fund-raiser finished so we can hold the drawing at the April Meeting. If you want a ticket and can't attend the April meeting, let me know and we'll see what we can do to get you a ticket.

I've heard from a number of members that they would like more "Face Time" with other members at the meetings. Before the meeting, I'm sure there will be a number of members gathering at different restaurants- if you're doing so, please publicize it so that others may join you. Its better if we spread out among the different restaurants, so no one restaurant gets overwhelmed. While we have 3 presentations for the meeting, 2 of them are "less than 15 minutes", so that will allow more face time during the meeting.

The club officers are working on a spot for a June or July picnic- nothing yet to report, and it may not come off. Its difficult to find a good spot during that time of the year.

That's pretty much it for this month. Hope everyone had a good time in WPX SSB! Contest Exuberantly!

William F. Santelmann Jr. – N1AU – Peabody, MA – February 20, 2019

Age 92, longtime resident of Lexington, MA, died on Feb. 20, 2019, at Brooksby Village in Peabody, MA.

He is survived by his wife of 66 years, Jean, and is predeceased by his son, Stuart, KC1F (SK). He is also survived by daughter, Elaine and her partner Tom Zuppa of Littleton, MA; son, William Scott and his husband Richard O'Connell of Harwich, MA; daughter, Beth Ziegler and her husband John of Hartland, VT; and daughter-in-law, Leslie Minassian of Milford, NH.

He was a loving grandfather to nine grandchildren, William Alex Ogle, Abbi Courtemanche, Annalise Taber, Molly Ziegler, Corey Santelmann, Emma

Santelmann, Richard White, Andrew White, and Ella Ziegler; and two great-grandchildren, Olive Courtemanche and Genevieve Ogle.

Bill was born and raised in Washington DC, the son and grandson of Directors of the United States Marine Band, which remained an important legacy throughout his life, and led to his lifelong love of music. He earned a Bachelor's degree from Cornell University in 1948, a Master's degree from MIT in 1951, and a professional degree from MIT in 1952, all in electrical engineering.

He was committed to pacifism and nuclear non-proliferation, and over the course of his long career

refused to work on military contracts. A citizen of the world, he traveled broadly and was an avid amateur radio operator (N1AU). A long time YCCC member, Bill served as YCCC President from 1985-1987 and Vice-President from 1998-2000.

He was passionate about social justice and acted upon his beliefs through civil resistance. He was an active member of the Lexington United Methodist Church, where he chaired the Outreach Committee for many years and enjoyed singing in the choir.

He was rarely seen without multiple cameras around his neck to document important life events.

Most importantly, Bill was devoted to his children and grandchildren with whom he shared his values, his offbeat sense of humor, and ability to fix anything.

Bill is remembered by many YCCC members as a wonderful human being, a gracious gentle person, a true gentleman and an intrepid contester.

A Celebration of Life was held on Sunday, March 24<sup>th</sup>, at The Brooksby Chapel, Peabody, MA.

#### NY CAPITAL REGION MEETING

March 14, 2019 Amsterdam, New York

A NY Capital area local meeting was held Thursday March 14th at Shorty's Southside Tavern in Amsterdam NY.

7 members attended:

Will WC2L John KE1IH Dave KJ4IZW Chuck N8CL Mike N2MG Brian NJ1F Ray NM2O

Mike, KJ4IZW was inducted as a new member and dues were collected from Chuck N8CL.

The general topic of discussion was about how bad band conditions were during the recent ARRL DX phone contest. We also discussed how good conditions were on 80 and 160 meters.

Like normal, Mike N2MG told some great stories.

Our next local meeting will be in the fall.

73 - John KE1IH

### **Central CT Area Lunch**

Bear's Smokehouse - Thurs Feb 21st

Attendees were: K1RM, K1EBY, N1MM, K1ZE, K1KI, W1VEM, W1WEF, N1IMW, N1JW, W1TJL, N1IXF

Besides good BBQ and casual conversation:

Tom - N1MM demonstrated the effectiveness of the Bose QC25 headset noise cancellation and passed around the Antlion detachable boom mic that mates with a magnetic mount... very lightweight.

Discussed the Radiosport & Field Services Manager opening at the League; Results, issues and memorable events from ARRL DX CW weekend; Amplifier issues; Future meetings and summertime work parties. And many more one-on-one topics.

It was fun and we'll have another get together later this spring.

Rich N1IXF

## **February Meet Contesting Panel Discussion Highlights**

N1RR, KO2M, WC4E & KM1P

**N1RR**: Let's discuss the most important things that contribute to an SSB DX contest effort. Butt in chair time. Maximize your operating hours. If you operate at a multi-op, and you do go home and have time to operate from home – DO IT.

N1RR Sleep: Prepare an operating plan and plan your sleep times. -Thursday night into Friday. I try to go to bed at regular time and plan to stay in bed until about Noon Friday. Then I take a nap before the contest from 2 or 3PM until 6PM. During the contest: SLEEP WHEN EUROPE SLEEPS. 00-06Z or sleep when slowest which is traditionally 07Z or 08Z to 10Z. GIVE SOMEONE in the house ANYTHING THEY WANT to make sure you get up. Use two alarm clocks.

**KQ2M**: Organize your operating position, Print out List of DX-peditions and note if they are S/O or M/S, Create of list of band opening times.

WC4E: Know your stations limits and capabilities and plan your operating around its strengths, know when to Run and when to CQ.

**KM1P:** Try using different phonetics.

**N1RR**: Pick your category to achieve your goal. Go assisted to maximize your contribution to the clubs score. Plan a multi-op (M/S) or a M-2. Go M/M if you want to go to any band at any time.

**KQ2M**: Frequency selection is important, fastest rates are at the bottom of the band, however if you don't have a clear frequency you won't be heard and you will have a hard time hearing stations calling you.

**WC4E:** DVK Setup your call on several F keys saying it at different speeds. Save one key/memory for lowband CQing with the freq you are listening to.

**KM1P**: Be flexible on frequency selection especially on 40 and 75 meters when you might want to alternate between Split and Simplex.

**W1EQO**: Single ops with a single radio when the rate is slow, dial around on the other VFO between CQ's. (Tune all the open bands, call CQ on any open freq after asking if in use. – Ed.)

**N1RR**: Consider setting a SO2R on a couple of bands. Being able to work a low band and high band at the same time is especially handy at sunrise and sunset.

**KQ2M**: Learn your receivers features and how to use them well before the start of the contest! Especially filters, Notch Filter, Noise Blanker, Noise Reduction, Band Pass Widths and diversity reception.

WC4E: Remember to alternate between running and S&P.

WC2L: for smaller stations try a band next to the "PRIME" band. Everyone's on 20 meters but 15 meters is full of mults and Q's.

**KM1P:** If someone tries to steal your frequency or starts calling CQ to close to you, you have to be very fast to let them know they cannot stay and they have to move. Especially on SSB because once they get 2 or 3 CQ cycles in & if stations start coming back to them, they will not move.

Someone mentioned that you actually call the intruding station operator by name. If you don't know their name, look them up on QRZ.com.

**N1RR:** On the low bands, try alternating from working split as a runner, to S&P Split, then go to transceive as a runner and transceive S&P. If you find a clear freq, ask if in use and then call CQ. Try running for 3 -to-5 minutes. Once you get answers – keep calling CQ.

**KQ2M:** Operate with a sense of urgency, especially when calling CQ. Make a station tuning past you want to call you.

**KM1P:** If you are operating at a Multi Transmitter operation and calling on a slow band make sure to announce your 2nd station's CQ frequency. "Thanks, We're also on 21.444, QRZ contest K1KI."

Thanks to Brian, NJ1F (YCCC Secretary)

## **VE2BWL: A Short Story with a Happy Ending**

Guy Lemieux - VE2BWL

Last fall, I was approached a Squadron Quarter Master of the 35th Signals Regiment based in Sherbrooke, QC about an upcoming military HF worldwide competition (36 hours) amongst friendly armies. He was looking for antenna suggestions, to be erected 'Field Day' style by a group of reservists. The competition was held a few days after CQWWSSB in October and they won a 3rd place in their category, their best score in years.

Following the contest, I discovered real enthusiasm about contesting from about a dozen squadron members. By mid-December, the Canadian Armed Forces decided to organize a two weeks, full time ham radio course which culminated (last Friday Feb 8th) in the Basic Ticket where 9 out of 9 reservists obtained their full HF privileges and call signs. This is the basic licence; the next step is Advanced, equivalent to the Extra Class.

Our group of Canadian YCCC members will now get those guys to operate in our contests and Elmer them individually. A next step will also be to introduce them to YCCC meetings and membership. How about that for bringing new blood in our great hobby?
