

Scuttlebutt

No. 64 July 1986

President VP-Activities Manager Secretary-Treasurer Editor Bill Santelmann Ron Grzelak Charlotte Richardson Paul Young

N1AU 617-862-1753 K1BW 203-848-3796 KQ1F 617-562-5819 K1XM 617-562-5819

Captain's Cabin Bill Santelmann, N1AU

It's summertime and the living is easy. A time to lean back and enjoy the warm weather and long daylight hours. Or perhaps to take a vacation trip with a handheld or mobile rig and meet some new friends by radio.

I hope you will include our next meeting, a lakeside Bar-B-Que, as part of your summer relaxation. It will be at the Sheraton Sturbridge Resort and Conference Center on Route 20 in Sturbridge, MA, our new "permanent" meeting place, on SATURDAY August 2. The official meeting will be from noon to 1 PM, followed by a Bar-B-Que served by the Sheraton from 1 to 2 PM only. It will include hot dogs, hamburgers, assorted salads (tomato, cucumber, potato, macaroni, marinated mushrooms), condiments, rolls and butter, corn on the cob, watermelon, soft drinks and coffee. A cash bar is available in the Sheraton or BYOB. We then have the use of the beach on the lake for swimming or socializing until 5 PM. There is no formal program to bore the spouses, so bring them along. The cost is \$11.00 per person, and reservations are necessary!

Please make your reservation with Charlotte, KQ1F, by Wednesday night, July 30 as follows: Charlotte Richardson 11 Michigan Drive Hudson, MA 01749 (617) 562-5819 (home) (617) 568-6588 (work) or via the AK1A YCCC PCBS on 144.95 MHz by leaving a message for either KQ1F or K1XM.

The YCCC packet net is expanding nicely. The AK1A packet BBS is on 24 hours a day on 144.95 MHz in Amherst, NH. If you live to the south, try connecting via K1XM in Hudson, MA. If you live to the west, try digipeating through KY1H in Peru, MA, who will be on 144.95 daily from 8 to 9 PM when he is home. He has an excellent location and is a key digipeater for getting over the Berkshires on 145.01. Dave says he can service western Massachusetts, western Connecticut, eastern New York, and southern Vermont. By contest season, I understand from AK1A that K1KI will be running a second AK1A-style PCBS in Unionville, CT, which will be linked to AK1A through KY1H.

I hope you will give packet a try. It is an excellent way to communicate with other YCCCers. He or she does not have to be on the air when you send your message. You can store a message on the PCBS to be picked up minutes, hours, or days later, and errorfree, too! You can use it for sending articles to K1XM for the Scuttlebutt, for arranging operators and antennas, and even find what juicy DX stations have been heard recently on your favorite band. If you hear something good, you can announce it to the rest of us on the PCBS. Or you can just socialize and get to know other members better. You can even exchange digital logging and duping programs. In short, packet promises to improve communications immensely.

Our following meeting will be at the Boxboro ARRL convention on Saturday, October 18. I have asked for a four hour slot for the YCCC from 1 PM to 5 PM but at present have no assurance that we will be given this much time. I have presented a tentative program including a formal YCCC meeting from 1 to 2 PM, followed by three hour-long programs. One could be on 80 meter loop arrays by K1GQ, another might be on the YCCC DX and contest spotting packet net, and a third could be a panel discussion on DXing and contesting strategies by our club experts for each band. This program should be discussed and resolved at our August meeting. I'd like also to see a YCCC table set up for the full duration of the convention to pass out information on the Club and attract new members.

Directions to the Next Meeting

The new meeting place for the YCCC is the Sheraton Sturbridge Resort and Conference Center located on Route 20 in Sturbridge, Massachusetts, $\frac{1}{2}$ mile West of I-84 (first exit off I-84 when coming South from the Mass. Turnpike). Directions to the Sheraton are easy: Exit I-84 on to Route 20 West. You will pass through two sets of stoplights while noticing several motels on your right. Make a right turn just prior to the Burger King sign. This is the entrance to the Sheraton, and there is plenty of parking in front of the hotel.

The meeting dates have been set for the rest of 1986/1987 and are as follows:

DATE	DAY	DELI-LUNCH
August 2, 1986 October 18, 1986 December 7, 1986	Saturday (Meeting Sunday	Lakeside Bar-B-Que to be at Boxboro) 11:30 AM
February 7, 1987	Saturday	11:30 AM
April 5, 1987	Sunday	11:30 AM
June 6, 1987	Saturday	11:30 AM
August 2, 1987	Sunday	Lakeside Bar-B-Que
October 3, 1987	Saturday	11:30 AM
December 6, 1987	Sunday	11:30 AM

Note that the official meeting time for all meetings is the traditional 1:00 to 4:00 PM with the exception of the Lakeside Bar-B-Que dates in August, when the meeting is from 12:00 to 1:00 PM with the cookout to follow.

Floating Paul Young, K1XM

July is a good time for reflecting on the past contest season. The last contest of the season, the half-radiosport is over. For me it's been quite a year.

There have been some good things: I went on my first contest DXpedition, and we won multi-multi for the world (OK, so it was SSB). I tried multi-2 in the ARRL contest, and it was a fun way to operate my station. I finally got my R-100 oblast award (class 2), so all that "spasibo za QSO" stuff paid off.

Also some bad things: I finally cleared up my last neighborhood TVI problem, you know, with the guy who calls and tells you how horrible you are for interfering with his TV (on cable, of course), and then puts his wife on so she can ask how you can do such a terrible thing... This week I got a new one, a guy who won't even tell me his name but swears at me and has threatened to call the FCC (maybe he will tell them his name). And I'm used to certain 3-land stations trying to steal my frequency, but this year the worst was a YCCC member...

I had three operators over for the ARRL DX Test CW, KQ1F, KM1P, and NB1B. It's strange to be outnumbered by 2X1 calls. I guess KN3O sort of legitimized them but the WPX just hasn't been the same...

Oh well, next contest season is coming; time to think ahead. I have to fix the antenna at 60' so it rotates fully, replace the 160 antenna which bought it in the ice storm, repair the QSK-1500, rewire the second station, fix the intermittent display, upgrade the packet station, waterproof the main rotor indicator, add more radials, and a few hundred more things that won't get done. Have a good summer!

Notice that we are once again able to print dues information on the Scuttlebutt mailing labels. Several members have told me that the mailing label on the last Butt indicated that they owed dues when they believed that they had paid. For several months last year, we were unable to print "ticklers" on the labels. As a result, many people paid their last year's dues in February. The new YCCC contest year (1986-87) started as usual at the April meeting. So, if the label says you owe dues for this year, you really do.

For the past few years, I have been a contributor to the W1AW DX Bulletin. Once a month, I call and tell the ARRL about the latest in DX. Until recently, most of my input has been coming from the Southern New England DX Association. Lately, they have not been as useful in DX gathering (DXers' interest wanes more than contesters' at the sunspot minimum). I am hoping that YCCC can fill the gap. If you are interested in helping, please speak to me at the next meeting. Also, if you hear anything interesting DX-wise, call me or leave me mail on the AK1A PCBS. When the bulletin goes out, it's with "Thanks to the Yankee Clipper Contest Club" and since it's listened to world-wide, the extra publicity couldn't hurt!

YCCC Badges Tom Frenaye, K1KI

If you don't have a YCCC badge yet, send K1KI a copy of your YCCC QSL card. Several people have badges ready to be picked up; see KQ1F at the next meeting to pick them up (\$1.00)!

Secretary's Report Yankee Clipper Contest Club

The June YCCC meeting was held on 8 June 1986 at the Sheraton Sturbridge Inn and Conference Center in Sturbridge, Massachusetts, with 37 members and guests attending. Twenty-five members and guests attended the pre-meeting lunch, where the food was good and plentiful.

John, K1AR, was not at the meeting due to the big basketball game. Members wondering what has become of their QSL card orders should contact him directly.

Field Day operations are planned by K5NA and KY1H. Dave, KY1H, in particular, plans a big effort from Peru, Massachusetts (West Mass. section), in the 2A category, including a Novice station, a packet station, and a satellite station (maybe). He needs operators and set-up and take-down crews.

Three sample copies of QEX were available.

The October YCCC meeting will be at the Boxboro ARRL Convention. Doug, K1DG, has the forms to reserve the room. We need a committee to organize a program. Volunteers should contact Bill, N1AU. The Boxboro Convention also needs Volunteer Examiners, who should also contact Bill, N1AU.

The club welcomed two new members:

John A. Dority, Sr. KB1I Dennis Egan NB1B

Doug, K1DG, reported on ARRL Contest Advisory Committee matters. He also read a postcard from JH1WRC to inform everyone that the All Asian SSB contest is really June 21-22, not June 14-15 as originally published, and a letter to the CAC from an unnamed North American contester complaining about American contesters (also unnamed, including one reported YCCC member) transmitting between 3790 and 3800 kHz during the ARRL DX Test SSB. Doug also read the CAC referendum and compared the Club's thoughts to those recorded at Dayton:

- Should the ARRL abandon the three-tiered club system, going instead to perhaps listing how many submissions a club had? YCCC voted YES; Dayton voted NO by a two-to-one margin.
- Should the attendance requirement be changed to two meetings per year for members over fifty miles from the club center rather than one half of the total number of meetings? YCCC voted YES, as did Dayton.
- Should the same eligibility requirements apply to all club members regardless of where they live? YCCC votes YES, as did Dayton.
- Should DXpeditions count towards the club aggregate score in the DX Test? YCCC was evenly divided on this, as was Dayton.
- Should operations by club members outside of club territory count towards the club aggregate in the DX Test? YCCC was evenly divided on this, as was Dayton.
- Should there be a foreign club competition in the DX Test? YCCC voted YES, as did Dayton (by a three-to-one margin).
- Should there be specified frequency ranges for contest operation? YCCC voted NO, as did Dayton.
- Should the DX Test again try an everyoneworks-everyone format to boost participation by DX? YCCC voted NO, Dayton voted YES.
- Should the ARRL DX Test CW be moved one week earlier to allow longer between the CW and SSB weekends? YCCC voted YES, as did Dayton (by a two-to-one margin).
- Should VY1 count for a different multiplier than VE8 for the DX Test? YCCC votes YES, as did Dayton (by a two-to-one margin).
- Should VY1 count for a different multiplier than VE8 for Sweepstakes, even though they are in the same Section? YCCC voted NO, Dayton was evenly divided.
- Should there be a Sweepstakes QRP awards category? YCCC voted NO, Dayton voted YES (by a three-to-one margin).
- Should the ARRL revive the ARRL QSO Party, and would you participate? YCCC voted NO, Dayton voted NO (by a two-to-one margin).
- Should the 10m Contest have separate multipliers for CW and SSB to increase CW activity?
 YCCC voted NO, Dayton voted YES two-to-one.

- Should single-op stations be allowed the use of spotting nets? YCCC voted YES, Dayton voted NO.
- Should there be a "seniors" category for operators over 50? YCCC voted NO, as did Dayton.
- Should contest exchanges use a serial number rather than an RST to give a better test of correct copy? YCCC voted YES, Dayton was evenly divided.
- Should 48-hour contests be shorter for single-op entries, perhaps 30 hours? YCCC voted NO, Dayton was evenly split.
- Should a single station be allowed to submit more than one single-band entry for a contest?
 YCCC voted YES, as did Dayton (three-to-one).

The next Board of Directors meeting is in six weeks, so comments should be sent in now.

Plans were begun for the August barbecue meeting. The meeting will be held from 12-1, with a family-oriented program, and the family barbecue will follow from 1-5. Tom, K1KI, suggested that invitations to the barbecue be sent to other clubs in the area. Reservations for the barbecue can be given to Charlotte, KQ1F. See elsewhere for details.

Paul, K1XM, is looking for operators for a familyoriented HC8 multi-single operation for the CQ WW CW this fall. Interested people should contact Paul.

Fred, K1VR, volunteered to look into obtaining nonprofit organization status for YCCC.

Bill, K1GQ, presented the slides he gave at Dayton on his single-op station.

Ken, K1EA, gave away a box of free boxer fans.

Dick, AK1A, talked about his packet BBS and passed out a list of commands it supports (see elsewhere).

Carl, KM1H, talked about the DVK-100 Digital Voice Keyer. A sample unit was available for members to try.

The crew retired for supper at the hotel complex's pub.

Respectfully submitted, Charlotte L. Richardson, KQ1F, Secretary/Treasurer 9 June 1986

What Next? Carl Huether, KM1H

It had to happen sooner or later. Where it will all end I could not even begin to guess. What am I talking

about, you ask? Well, it is the DVK-100 Digital Voice Keyer, from NEL TECH LABS Inc., of Londonderry, N. H., which made its public debut at the Deerfield, N. H., swap meet on May 10, 1986 (second largest meet in the U. S.). My prediction is that it will revolutionize SSB contests the way the memory keyer did to CW.

OK, enough hype. What does it do, how can it improve my contest score and what is the price? Fair enough questions so let me attempt to sort them out.

The DVK-100 is a full digital computer with more memory that most home computers. It digitally records and stores voice messages in up to four segments. The message segments are hard sectored and offer storage times of 16, 8, 4, and 4 seconds respectively. All operations are controlled by a membrane keyboard that features a light and smooth touch that will not wear fingertips smooth after a 48 hour contest. Each selected function is illuminated by a LED in order to minimize confusion and errors. The keyboard is mounted on the sloping front panel for maximum visibility and ease of use. It also features a guarantee of 2 million operations. No, there is not a counter to monitor key strokes but NEL TECH will replace any keyboard failure for free, without a time limit, to the original purchaser.

A built-in voice processor tremendously increases talk power with no noticeable distortion and without the annoying rise in background noise common to so many other units when there is no voice input. Messages can be recorded with or without processing and the function may also be switched in or out during recording. It may also be switched in or out when bypassing the storage unit and keying the transmitter directly. A combination of the DVK-100 plus a properly adjusted processor in the transceiver generates talk power that is unbelievable. Amplifiers with marginal power supplies are going to need extra fans to keep the transformers from glowing!

A monitor speaker is provided with selectable high or low levels or it may be disabled from the keyboard. An output jack is provided to drive an external audio amplifier so that the unit may be used as a voice announcement system, or for numerous commercial applications. An end-of-transmission "beep" is also selectable from the keyboard.

Compatibility with most transceivers/transmitters is assured by a number of well-conceived features. First, the input is selectable to accommodate dynamic, electret and condenser microphones. Second, correction for gain and bias is automatic and the unit can not be overdriven. Finally, the output VOX/PTT control line is selectable for either positive or negative keying. Even my old Drake C Line is compatible.

The DVK-100 is the brainchild of Gary Nelson Stapleford, N1BPO, who is a leader in voice technology with over 15 patents. The circuitry is state of the art and contains enough unique twists (i., e., patentable) to bring the price within consumer levels. Basically, continuously variable slope detection (CVSD) with a sampling rate of 32 kHz and 4th order switched capacitor filtering is employed. Memory storage is 128K Byte and the CPU runs at 12 mHz. A full blown technical description is not possible at this time due to the proprietary nature of the product. All of this is contained in a case measuring only 7"W x 10.6"D x 1.65"H. Small enough for any operating desk or field day location. The power supply is a wall outlet UL/CSA listed unit and is supplied. Total power consumption is approximately 15 watts.

Of supreme importance to the amateur radio market is radio frequency interference from/to computer devices. Let me say unequivocally that, the DVK-100 "ain't got none". A combination of pi-network lead filtering and optical isolation results in a unit that is able to conform to commercial quality RFI, EMI, and ESD specifications. A 1500 watt amplifier running out of its cabinet caused absolutely no interference to the unit. The amplifier did wipe out every TV and VCR in the house!! Conversely, the DVK-100 has been operated with the PC board lying on the operating table (no cabinet or shielding) and caused no detectable interference on any ham band from 1.8 to 148 mHz.

Throughout the demonstration, NEL-TECH stressed quality and reliability. From the double-sided PC board to the top quality components to the underrated power supply, this unit goes first class. The unit was operated with the sun beating down causing the cabinet to be too hot to touch. It never missed a beat. In normal operation there is no noticeable heat generation. The complete DVK-100 is warranteed for 12 months parts and labor except for the keyboard as mentioned earlier. Since it is software driven, product updates are easily accomplished. Each unit is supplied with a registration card so that any bulletins or enhancements can quickly be distributed to the owners.

The impact that this product can have on the contest scene can only be surmised at this point in time. My own personal opinion was stated in the opening paragraph of this article. Tape loops, with all their attendant shortcomings, have been around for a long time. They are essentially a single function device whereas the DVK-100 can supply most of the information needed in a contest exchange. This writer has experienced a very noticeable improvement in time available for such housekeeping chores as logging, duping, etc. Since K1AR is already able to operate his body as a computer, maybe us mere mortals can now compete!! On-the-air demonstrations have continually

brought enthusiastic responses. I have yet to find anyone who could tell the difference between the DVK-100 and my natural voice.

OK, now comes the bottom line. The DVK-100 is being introduced at \$349 in single quantities. A special club discount will be available to those submitting a request on club letterhead. Affiliation with national associations is not required. International inquiries are welcome. The DVK-100 is available from: LC ELECTRONICS, 54 Hobbs Road, Pelham, New Hampshire 03076, Telephone: 603-635-3048 (no collect calls please). Specification sheets are available upon request.

"What next?" is the title of this review and I will try to hazard a guess. Having known Gary Stapleford for many years both professionally and personally, I would say that NEL-TECH LABS will create a very comfortable niche for themselves as suppliers of very high tech accessory products. The contester, DXer, repeater fanatic and others would be amazed at some of the product ideas that Gary makes sound so easy!

Who Likes to Read About Contest Rules in QST?

Tom Frenaye, K1KI

Earlier this year (2/86) I sent out a survey to all ARRL members in New England and as part of that survey people were asked to check which of 35 QST columns were regularly read. The 1335 people who responded picked Product Review as the most popular (78.7%), closely followed by New Products (78.4%), Ham Ads (77.4%), and Hints & Kinks (77.2%).

Readership of Contest Corral (39.0%) and Contest Rules (37.4%) was significantly lower, but still quite a way from the bottom (23rd and 24th of 35). A closer look at who read those two regular columns should give us a reasonable profile of an "average" contester. Breakdowns were generated by license class, age and number of years licensed.

The most important factor was an Extra Class license. Readership also dropped off significantly if the age was over 50. The number of years licensed didn't seem to be as important, except that those coming into Amateur Radio during a sunspot maximum (license 5-9, 15-19, or 25-29 years) seemed to show a little more interest than those getting started during a sunspot minimum. Oh yes, readership was highest in Western Massachusetts and Rhode Island, and lowest in Vermont and Maine.

Contest Rules	%	Contest Corral	%
Extra	48	Extra	53
Age 10-29	47	Age 10-29	53
Age 30-39	46	Age 30-39	49
Age 40-49	46	Age 40-49	46
15-19 Years Licensed	44	25-29 Years Licensed	44
25-29 Years Licensed	40	5-9 Years Licensed	42
1-4 Years Licensed	39	20-24 Years Licensed	40
30-39 Years Licensed	39	30-39 Years Licensed	39
5-9 Years Licensed	39	10-14 Years Licensed	39
50+ Years Licensed	37	15-19 Years Licensed	38
20-24 Years Licensed	36	Age 50-59	38
Novice	34	1-4 Years Licensed	37
10-14 Years Licensed	34	General	34
Age 50-59	33	50+ Years Licensed	33
Advanced	33	Age 60-69	32
General	32	Novice	31
Age 60-69	28	Advanced	31
Age 70+	28	40-49 Years Licensed	31
40-49 Years Licensed	24	Age 70+	24
Technician	24	Technician	22

If we want to show an increase in the number of people interested in contesting, it seems obvious that we need to attract more people at a younger age to Amateur Radio than we are now!

Among the Missing...

The club does not have current addresses for the following members and subscribers. If you know a current address please send it to the club secretary.

Leonard Kay, KB2R Albert E. Vacek, Jr., KN5A

New Section in Sweepstakes! Tom Frenaye, K1KI

The ARRL Executive Committee approved a request from amateurs in western Texas to create a new Section in the ARRL Field Organization. The West Texas Section will have an election for Section Manager later this year but will be available as a new multiplier in the ARRL Sweepstakes. That makes the SS multiplier 75 again (74 sections plus VE8/VY1). We lost #75 several years ago when the Canal Zone went back to Panamanian administration!

Give Something Back to Amateur Radio for a Change!

Luck Hurder, KY1T (ARRL EMass Section Manager)

You're pretty much a typical ham, right? You enjoy the benefits of the Amateur Radio Service as much as the next guy or gal. Maybe you're an avid DXer, a ragchewer, or packet enthusiast. Certainly we're all aware of the many sources of enjoyment that can be realized by being active Amateurs, regardless of the modes or frequencies that appeal to us the most.

But how many of you, I wonder, ever take a moment to reflect on the possibility that maybe, just maybe, you're taking a free ride? Yeah, sure – I can just hear it now from a few of you. "I've paid my dues – I sweated my you-know-what off, studying the theory and (yeck!) the code so I could get my present license" and "Hey fella, I don't particularly appreciate you sitting there in front of your computer, telling me that I'm not pulling my fair share of the load." I hear it all the time.

Honest, my intent here is not to berate you. Oh, I wouldn't mind making you feel just a tinge guilty, certainly, but the goal is to point out to you that there's a huge number of things that you (yes, YOU!) can do to benefit the Amateur Radio Service.

You say you don't have a lot of time for on-the-air activities? Few do, but that's not stopping many of us at all. We do things that we find gratifying and easily accomplished with the resources available – you can certainly do the same.

Why not concentrate on some well-documented problems already facing us that the assistance of more Amateurs in a given area could readily solve? Here's a few examples:

1. Amateur to Amateur Interference Problems

Some of you are aware of a growing problem with two meter interference situations in the Boston area. It will likely happen on your local repeater if it hasn't already. What are you going to do about it? Call the FCC? Not any more. They don't have the time, resources, or inclination to handle "minor" difficulties like this, and are in the process of turning over all such referrals – and many others – to the Amateur Auxiliary. That's all fine and dandy, but there's a problem here. We (the Auxiliary) don't have sufficient manpower. While the EMASS Section is probably in a higher state of readiness than any other Section in the country – with only a grand total of 20-some-odd people in the Auxiliary here, well, you get the picture...

Solution: Volunteer now. Send a request for an application to join the Amateur Auxiliary to the FCC's Field Operations Bureau. Do it today. Will it cost you much in the way of time? Nope – perhaps an hour a month. We'd sure like to have 75 interested individuals just in the Boston area alone, not to mention the hundreds of qualified Amateurs necessary to tackle problems already occurring in the outlying areas.

"Advertising" Amateur Radio to the Public

The EMASS Section is blessed with a large variety

of individuals and clubs who know how to effectively spread the word. The excellent effort by the Council of Eastern Mass. Radio Clubs (CEMARC) at the Boston Museum of Science Amateur Radio demonstration is a first-class example. Ditto for the fine job that Public Information Officer K1HLZ and his growing crew of Public Information Assistants are doing. But, again, we need many more people. A realistic goal for 1987 would be to obtain the services of Amateurs in close proximity to every newspaper, radio, and TV station in the Section, and to send frequent news releases to each of them. I do it here on the Cape - takes me about 20 minutes a month all told - with a very worthwhile return on my investment. Still, I could certainly use some help. How about it for those of you in other areas of the Section?

The Lack of Amateur Radio Emergency Communications Capability

Didn't know there was a lack, eh? You bet there is! Just ask Section Emergency Coordinator KB1PA how many towns in the EMASS Section have ECs. It's embarrassing, but he'll tell you – durned few. Emergency communications – the one aspect of the Amateur Radio Service that we're taught as being the most important – needs your help. The League has a large number of excellent training aids and offers an immense amount of support to newcomers and seasoned veterans who are interested in this aspect of the Amateur Radio Service. Contact KB1PA or myself right away for details.

There are many other areas where your expertise (OK, so maybe it's only an ember of an interest) can make large improvements in Amateur Radio. Do you know how to handle formal written traffic during an emergency? (Be careful answering that one – I was somewhat surprised to find that only two of the many Field Day messages I received this year were in fact in proper format!). You can at once improve your skills and perform a valuable function by participating in organized traffic networks. Don't wait until you HAVE to send messages for your community – it's too late then...

Are you technically inclined? Do you have real expertise in one or more areas of Amateur Radio – and can you express yourself clearly? Consider imparting your knowledge to others – become an Assistant Technical Coordinator who responds to written requests for assistance from others. League HQ responds to thousands of technical (some NOT so technical – "Will enamel covered wire work as well as bare wire for my dipole?") requests each year that are now being returned to the Field Organization here at the local level. We need your help.

If any of the above suggestions spark your interest in helping the A.R.S. to become something better than it already is, fine, then I've succeeded in doing what I intended.

You've been enjoying Amateur Radio all along - now it's time to give a little something back - volunteer to assist us today.

You can do so by contacting me at PO Box LL, N. Eastham, Ma. 02651. My telephone number, 24 hours a day, is 617/255-2029. You can also contact me by MCI Mail (user name KY1T) or by packet at the W1ZHC PBBS. 73!

A Computer-Controlled Station Tom Frenaye, K1KI

Larry "Tree" Tyree, N6TR, of Beaverton, Oregon, will have what may be the first completely automated computer operated Amateur Radio station QRV during Field Day on June 28 and 29. The Z80-based computer and some experimental software will be running a TS-430 transceiver with battery power (category 1-D) without the need for human assistance. The software will tune the receiver, locate the station to call (it only answers CQs so far), complete the QSO, print out a record of the contact and go looking for a new one. It's even ready to respond hello, with names, to a list of about 20 stations "it" expects to work during Field Day!

Tree notes that there is still a long way to go before it can even come close to matching a human operator, but he wouldn't be surprised if 150 or more stations were worked during the Field Day period (better than some humans!).

QST Product Review Bibliography Tom Frenaye, K1KI

The most recent issue of QEX The ARRL Experimenter's Exchange) (#52) noted that a complete list of Product Review items that appeared in QST from 1976 to 1985 is available for \$3.00. Send to Technical Department Secretary c/o ARRL. The eleven-page listing is in order by manufacturer and includes the product model number, the month-year it appeared in QST, and the author(s) name and callsign. A couple of examples:

- Autek MK-1 Keyer, June 1977, Doug DeMaw, W1FB
- Cushcraft 40-2CD 40-M Skywalker Yagi, July 1983, Mark Wilson, AA2Z
- Dentron MLA-2500 Amplifier, March 1978, Jay Rusgrove, W1VD
- Icom IC-751 HF Transceiver, January 1985, Mark Wilson, AA2Z
- Lance Johnson Eng. D-Lay-5 Rotator Control, April 1983, Paul Pagel, N1FB
- Southwest Tech. Product. 68000 Computer System, April 1977, Lew McCoy, W1ICP
- Telex Hy-Gain TH7DX Antenna, February 1983, Pete O'Dell, KB1N
- Z. R. C. Cold Galvanizing Compound, October 1980, Doug DeMaw, W1FB

Excess Cargo

For sale:

Rohn model 25 58' foldover tower, \$350. Ready to move on the ground.

32' self-supporting tower with AR22 rotator, \$70.

Both located in Sudbury, Massachusetts.

Contact David Allen, W1WAI, at

800/523-3282 (Colorado, between 9AM-7PM EDT)

303/796-9067 (other hours, Colorado)

or Dorothy Allen at 617/443-9867.

Four element 15m beam. \$50.00. Call Ron, K1BW, at (203)848-3796.

Four element 10-meter monobander. \$60.

Mosely CL-33 Tribander. \$140.

Heathkit SB-300 receiver. \$150.

GB-45 (Guy Bracket with torsion bars for Rohn 45). \$20.

Contact Dave, K1VUT.

The Scuttlebutt is the newsletter of the Yankee Clipper Contest Club and is mailed six times per year to all paid up members. Dues are \$10 per year, payable 1 April with a grace period through 30 June. Non-members may subscribe to the Scuttlebutt by sending \$10 to the Treasurer: Charlotte Richardson, KQ1F, 11 Michigan Drive, Hudson, MA 01749. Subscribers who subsequently become members will be credited as having paid dues.

The Scuttlebutt may be reprinted in whole or in part, except for separately copyrighted articles, provided proper credit is given.

The Yankee Clipper Contest Club (an ARRL Affiliated Club) holds six official meetings per year, on the Saturday or Sunday afternoon of the first full weekend of every even month in the Sturbridge, Massachusetts, area. The deadline for article submission to the Scuttlebutt is three weeks before the next meeting date. The next meeting will be on 2 August 1986. Attendance at an official meeting is <u>required</u> in order to become a member. Club members congregate on 3830 Khz or 1900 Khz Monday evenings; many routinely monitor these frequencies other evenings as well.

Rosters are mailed to all paid members each summer. For more information and/or assistance, contact the area manager nearest you on the following list:
