## 42 MEGAPOINTS!!

### Contest Update de K1AR

There is some exciting news that all YCCC members must know now!! We are, for the first time, very close to FRC after the CW weekend, so close that even they are worried! As far as I can estimate, we have a club score of about 42 million points which by the way is up from the 18 million showing of last year! That compares to FRC's total of 49 million just received. Traditionally, CW is our weak point and FRC's strong one. What all of this means is simply that we aren't fooling, YCCC can and will win the gavel. It's going to take an all out effort on the part of every member, however, to do it. As far as I can tell, we are gearing up for a great effort on phone. As of now W2PV, K1OX, and K2TR will all be on multi-multi and should yield 20 million points alone (not to mention all the mini-multi stations)! We are not going to win because of those stations, but rather by each and every one of you getting on and making a score. If there is a way for any of you guys to go multi-op, give it a try even if it means using 2m to help you with mults.

In my opinion everyone did an incredible job on cw and now it's time to show the YCCC strong point...SSB. FRC has always had a weaker showing on phone which means we as a club can gather steam and blow right past them. Let's not blow it guys, but rather pull out all the stops. With an all out effort from everyone we will walk away with the gavel in our pockets and the feeling that we did it guys...we really pulled it off!!!

### Meeting Date Change de K1AR

Due to lack of availability of any suitable meeting place for the meeting originally scheduled for March 21, we have been forced to move the meeting date up to Saturday, April 4 at the same location as the previous meeting. There will be more details in the next BUTT.
